

As of October 2017, schools have the responsibility of publishing swimming data. This data should express how the children have met the National Curriculum expectations in KS2. By the end of Year 6 children should be able to: swim 25m, use a variety of different strokes (breast stroke, back stroke, front crawl) and be able to perform a safe self-rescue.

At Springwell our Primary pupils attend AquaKids Swim School, who deliver a high quality teaching programme to meet the needs of our children:

Beginners: Build water confidence and buoyancy followed by the introduction of different strokes.

Intermediate: Introduce different strokes and the techniques that they need to complete 25m.

Developing: Work on their technique, stamina and speed to be more efficient in the pool.

Details of children who have met curriculum objectives in Year 6 can be found below.

Meeting national curriculum requirements for swimming and water safety	
Percentage of our current Year 6 cohort who swim competently, confidently and proficiently over a distance of at least 25 meters.	60%
Percentage of our current Year 6 cohort who use a range of strokes effectively, for example, front crawl, backstroke and breaststroke.	30%
Percentage of our current Year 6 cohort who can perform safe self-rescue in different water-based situations.	30%

Schools can choose to use the Primary PE and Sport Premium to provide additional provision for swimming but this must be for activity **over and above** the national curriculum requirements. We have used this to enable children who did not complete the 25m in Year 5 to attend swimming sessions for a further term when they are in Year 6.
